The Techko LF282N Paper Folder has been discontinued. See our Paper Folders index for a complete list of our current products

Are you tired of folding paper by hand? The LF282N paper folder folds up to 5 sheets of standard paper at one time. Just drop your paper into the LF282N feeder, the paper folder pulls the sheet in and pops it out folded into a "C" also called "Letter Fold" (See Example Below). It is easy to use and makes low volume paper folding a snap. For small jobs it pays for itself in no time.
