Guarantee

Operation of this machine is guaranteed for one year from date of purchase, subject to normal use. Within the guarantee period, IBICO will at its own discretion either repair or replace the defective machine free of charge. Defects due to misuse or use for inappropriate purposes are not covered under the guarantee. Proof of date of purchase will be required. Repairs or alterations

made by persons not authorised by IBICO will invalidate the guarantee. It is our aim to ensure that our products perform to the specifications stated. This guarantee does not affect the legal rights which consumers have under applicable national legislation governing the sale of goods.

Getting started

- Push the handle onto the shaft on the right side of the machine.
- Align the flat spot of the handle with the flat part of the shaft and secure with a Flat Head Screwdriver.
- Firmly push the female end of the power cable into the power co receptacle.
- Connect the plug to the socket, having checked first to ensure th 'on/off' switch is in the 'off' position.

Settings adjustment

- 1 Set the Edge Guide (Fig 1, A) to the paper size guide, as marked on the machine.
- 2 To determine the correct coil size to use on your document slic Binder Sizer open (Fig 1, B). Place the document, including the behind Binder Sizer. Release the Binder Sizer and select the cc corresponds with the size shown by the guide.

Punching paper

- 1 Collate the documents, make sure that the document is aligned correctly and insert the edge to be bound into punch throat (Fig 1, C). Jog the sheets until they are flush against the edge guide and the bottom of the punch throat. Hold the sheets in place with one hand.
- 2 To punch the paper, pull the Punch Handle (Fig1, D) towards y the way down to punch completely through the paper. Punch sheets of 80gsm paper at once. Punch only 2 clear covers at a prevent jams or excessive wear.

Feeding the coil onto the document

- 1 Start to feed the coil by hand into the first few holes in your document (Fig 2).
- 2 Hold the book firmly on both ends with your fingers just below holes to prevent the pages from separating. Switch on the roller the started coil, in the document, against the roller and hold in the roller spins the coil through the holes (Fig 3).

Crimping

- 1 To begin cutting and crimping, lay the document on a tabletop surface with the coil bound edge facing you.
- 2 Place the crimpers in your right hand with the red dot facing up (Fig 4).
- 3 Working on the right side of the document, place the mouth of the crimpers around the coil coming through the first hole in the document.
- 4 Quickly squeeze the crimper handles together to cut and crimp motion. It is not necessary to twist the crimpers.
- 5 Flip the document over and repeat steps 2 to 4 for the uncrimp
- 6 For left-handed operation, simply perform the crimping operati left end of the document with the red dot facing down.

Emptying the waste tray

Empty the waste tray after repeated use. Pull the tray gently towards you, to open.
