

Electrical/Power Certification Form

Destroyit® 5009 Shredder

The 5009 requires the following:

1. 208 to 230 V AC, 50/60 HZ, 3-Phase—**Stable Voltage**
2. 50 Amp circuit breaker **OR**
3. General Duty Safety Switch fused for 50 Amps.

NOTE: If 208 volts or less is present under no-load, power will probably drop below minimum requirements under full load and possibly cause performance problems.

NOTE: Machine may be hard-wired to circuit breaker. Power Cord is 8 AWG, 3 conductors and one ground. Safety switch can be utilized to deter unauthorized use. Selling dealer will be responsible for providing service on this machine.

Electrical/Power Certification

Customer Name: _____

Address: _____

City, State, Zip: _____

Telephone No: _____

Measured no load voltage: A-B _____ A-C _____ B-C _____

A-Ground _____ B-Ground _____ C-Ground _____

Readings performed by: _____
