The pal is obsolete. It has been replaced by the [ONYX PAL-M Piks-A-Lift Manual Module](#).

The Pal M Picks a Lift add productivity to your punch jobs. You can easily adjust the amount it picks to maximum amount of paper your machine can punch. Your whole binding process will get much more efficient when you dont have to inaccurately measure the paper to punch each time.

The Pal M Picks a Lift fits on top of Rhino-Tuff Vertical punches or can be used with any punching machine.
