### The Speedy-Lam 330R-10 10 Roller Pouch Laminator is the fastest pouch laminator on the market today.

Armed with 10 rollers, 6 of which are heated, the Speedy-Lam 330R can laminate up to 15 letter size [Laminating pouches](#) in 60 seconds! It can laminate at speeds up to 12 feet per minute. That is over 2 times the speed of our two prior fastest laminators, the [UltraPhoto 13 Photo Pouch Laminator](#) or our [Lamitek SL-14 Pouch laminator](#)!

The Speedy-Lam 330R laminator has a patented cooling system that keeps the exterior of the laminator cool to the touch even when doing long production runs.

This laminator also offers a cool down cycle. Just press and hold the power button to activate the cool down cycle. The cooling fans will continue to run until the machine has reached the correct shut down temperature. When the laminator is cooled it will automatically shut itself off, thus preventing damage to the heated rollers.

The top roller cover is easy to remove to make maintenance on the system simple.

### Features

- Temp. - variable heat controls
- Speed - variable speed controls
- Reverse - to clear jams
- Hot & Cold - allows for both types of lamination.
- Counter & Reset - measure amount of lamination produced in a session.
- Memory - to preset jobs.
- Measure - measure actual roller temperature.

- Maximum Laminating Width: 13"
- Maximum Laminating Speed: 12 feet
- Maximum Pouch Thickness: 14 mil
- Number of Rollers: 10
- Operating Temperature: 0° to 160°
- Temperature Control: Yes
- Speed Control: Yes
- Reverse Switch: Yes
- Preheating Time: 5 Minutes

## Specifications

Max. Laminate Thickness	14 mil Mills
Max. Laminate Width	13" inches
Max. Laminating Speed	144" inches/minute
No. of Rollers	10
Temp. Control	Digital
Speed Control	Yes
Reverse Switch	Yes
Power	120 V, 60 Hz, 1500 W
Size	25" x 13-3/4" x 5-3/4"
