The **36" Rotatrim Professional (Mastercut)** rotary cutter is one by which all other cutters are judged. Over 250,000 are in use worldwide; in schools, offices, studios and darkrooms, where their sturdy construction is rigorously tested, day-in, day-out. The enclosed cutting blade leaves no way for your fingers to make contact with the blade making it the first choice for safety.

With cut lengths up to 36" The Rotatrim model features unique chromed steel twin guide rails, an all-metal cutting head and end frames "A4+" size indicators and two additional metric/inches scale bars. These Professional cutters are designed to withstand high volume applications and will handle virtually all flexible materials up to 2.0 mm thick
