The WirePro 201 is a heavy duty 3:1 wire binding machine built to last. With its high easy pull handle it punches up to 20 sheets of 20 lb. paper with ease. The WirePro 201 punches a 3:1 square hole to bind all sizes of 3:1 pitch wire (3/6 to 9/16). The WirePro 201 offers removable punch pins to allow documents with a binding edge length of up to 12 to be bound. It has an open ended punch with a locater pin allowing documents over 12 inches to be punched.

The back gauge is adjustable allowing the punched holes to be deeper or closer to the binding edge. The integrated vertical style wire crimper offers the most user friendly design for a perfect crimp every time. The crimper is easily set with a color coded side dial. Another handy feature of the WirePro 201 is its convenient rear facing wire hanger so the user can insert the pages on the wire as you punch, unlike other models that get in the way of the punch. Lastly the WirePro 201 has an all metal heavy duty construction and comes with a 1 year Warranty.
