The **MightyLam 2700HC Roll Laminator** has been Discontinued and replaced by the [Ledco Premier 4 Roll Laminator 25" Roll Laminating Machine](#)

See our [Roll Laminating Machines](#) index for a complete list of our current models.

**MightyLam 2700HC Roll Laminator** was redesigned to be a roll laminator in a quick print environment it can use up to 27" roll film and mounting board up to 24" wide. The **MightyLam 2700HC** Roll Laminator features hot and cold lamination with dual heated rollers, release liner take up and a 1/4" mounting capability. Affordable and functional, this laminator is capable of running all types of cold and heat-set pressure sensitive laminates, adhesives and encapsulating with true thermal laminates. In addition to being so versatile, this machine features a "heat assist" mode (top roller heat only) that delivers the perfect heat level to increase initial adhesion and clarity of slow curing pressure sensitive films, lessening the time to receive finished output suitable for display. The **MightyLam 2700HC** Laminating/Mounting Machine will afford you the experience of incomparable laminating quality and value with the plug-and-play machine. Best of all, the **MightyLam 2700HC** is made in the USA.
