CD/DVD spindle hubs are adhesive-backed centers for mounting CD and DVD discs. Peel and stick adhesive on the hub's back makes assembly fast and easy. When compressed, the spokes of the hub compress to accept the disc. When released, the spokes expand slightly to hold the disc in place.

Features

- Hubs are 1-3/16" diameter x 3/16" thick.
- Adhesive-backed with a removable liner.
- Sold in packages of 100.
- Adhere to printed pieces to create a spindle for CD and DVD discs.
- A tab makes removal of the liner easy, speeding assembly.
