25 inch width. A commercial evolution on medium-duty laminator, designed for commercial applications setting a benchmark for quality, durability and reliability. 2 year factory warranty.

An evolution in medium-duty laminators

Commercial users needing quality of finished lamination, variable speed to 10 fpm, digital controls for temperature control, inline slitters, forced air cooling, rubber rolls are spring loaded and preset for even laminating pressure. Reverse switch on motor and pressure release control on rollers making it easier to clear film. Maximum film gage 10 mil, maximum laminating thickness 1/8 inch.

The Premier 4 represents an evolution in medium-duty laminators, because it was designed exclusively for commercial applications, and because it sets a new benchmark for quality.

Whether it's judged by appearance, by ease-of-use, by durability and reliability, by the finished lamination, or by overall capabilities, the Premier 4 is unparalleled quality.

Commercial users must have that quality to help them satisfy their customers. The Premier 4 was made specifically for copy shops, print shops, business service centers, laminating services, school supply stores, sign/banner shops, in-house graphics departments, and other commercial users with similar needs.

Features

- 25" commercial duty roll laminator
- Laminates using film up to 10 mils thick
- Variable speed control
- Operates at speeds up to 10 feet per minute (FPM)
