The FC114-A combines all the best features of the [Accucreaser](#) and [Accunumber](#) into a single machine. It's ideal for medium to high volume shops who need to be able to process a wide variety of stock and who require automatic feeding.

This air fed 18" wide unit is designed to do numbering, high-quality creasing, perforating, scoring, and optional micro-perfing, either individually or in combination. The user friendly interface makes setup simple and easy to understand.

## Features

- Includes one crease bar with 2 different size grooves for thick and thin stocks.
- Includes one pneumatic numbering head with 7 digits and 3 drop zeros and 4 repeats. Additional heads available.
- Includes one complete perforating assembly.
- Compression creaser reliably creases digital output without cracking.
- Pneumatic driven numbering heads are more reliable than solenoid electric heads.
- Automatic setups with the touch of a button.
- Accurate rotary actuated impact creasing.
- Linear Perf/Score capabilities, including micro and laser perf.
- Micro-Lateral adjustable feed rails
- Sheet, batch, and total counters.
- Automated distance recognition.
- Has the ability to add an inline folder.
- Has the ability to add an inline transport to the Countcoat UV Coater.
- Comes with both standard and wide crease dies.
- Simple programming allows you to number, perforate, or crease individually.

- Gothic (7) wheel reverse numbering heads offer many repeat sequences: 0,1,2,3,6 and 3 drop zeros.
- Automatic bottom feed suction with register guide.
- Each numbering head can be programmed individually for multiple numbering.
- Numbers virtually anywhere on a sheet, from lead edge and numbers within .01" of previous number.
- Number single sheets or crash number up to a 10 part carbonless form.
- Patented self inking disposable ink cartridges. No re-inking required.
- Approximately 25,000 impressions per ink cartridge.
- Ink available in red or black.
- **Optional compressor available for shops that do not have an air supply.**

## Specifications

Warranty	One year warranty on electrical and mechanical parts.
Power	115/230 V, 50/60 Hz <b>Compressed air also required.</b>
