3/8" Perma Lock screws are an unslotted, drive-in type permanent locking screw. They can be used in all of our aluminum screw posts and standard steel screw posts sizes 3/8" and up.

Perma Lock screws are made of steel and have a diagonal cross thread that, once tapped into a standard screw post, create a permanent lock. Perma Lock screws can also be referred to as Rapid Tap Screws because they tap in for quick assembly of your screw post bound items.
